### VANCOUVER CITY BY-LAWS.

#### BY-LAW NO. 245.

*A By-Law to licence, regulate Plumbers and to provide for the appointment of Plumbing Inspectors, and to provide for the plumbing, sewerage and drainage of buildings, and for repealing By-laws numbers 175, 188 and 189, and certain sections of By-laws number 131, known as the Public Health By-law.*

WHEREAS it is desirable and necessary to licence and regulate plumbers in the City of Vancouver, and to provide for the appointment of Plumbing Inspector, and to provide for the effective plumbing, sewerage and drainage of buildings, and for repealing By-laws numbers 175, 188 and 189, and certain sections of By-law number 131, known as the Public Health By-law.

Therefore the Council of the Corporation of the City of Vancouver enact as follows:—

1. The Council shall, from time to time as occasion may require, appoint such Inspector or Inspectors for plumbing, hereinafter called Plumbing Inspectors, as may be found necessary; but no person shall be eligible for such appointment who shall not have passed

a satisfactory examination for proficiency in both practice and theory of plumbing and drainage before the Board of Examiners, as hereinafter provided.

2. Such Inspector or Inspectors shall be under the supervision of the Board of Health, and shall be paid such salary as the Council may determine.

3. A Board of Plumbing Examiners is hereby constituted to consist of the City Engineer for the time being, who shall be Chairman of the Board, the Plumbing Inspector, and one practical journeyman plumber, to be appointed by the City Council. The last one shall hold office for one year after his appointment, and shall be paid a fee of \$4.00 for each session of the Board; and the Board shall be called together by the Plumbing Inspector, who shall be Secretary of the Board, at such times as the Chairman may find necessary.

4. In case any dispute arises under this By-law as to whether any person or persons employed by any licensed master plumber is a regularly educated practical and experienced plumber, as in this By-law is provided, the Plumbing Inspector may notify the said workman to appear and be examined before such Board of Examiners, whose decision as to the competency of such workman shall be final and conclusive.

5. The said Board of Examiners shall examine and may grant certificates of competency to any plumber who may apply for that purpose, and such certificate shall be recorded in the office of the Plumbing Inspector, the person receiving the same paying a fee of \$1.00 therefor, and such plumber shall be a registered plumber of the City.

Provided that the Chairman of the Board may grant, on being satisfied with the competency of any journeyman plumber applying for the same, a temporary permit to such plumber for a period not exceeding thirty days, which permit shall confer on such plumber the same privilege for that period only as if he held a certificate from the Board of Examiners.

6. Upon and immediately after the passage of this By-law, and in every ensuing year on or before the first day of July, any persons desiring to carry on business or trade as a master plumber within the City of Vancouver shall take out a licence, for which licence he shall pay at the time of the issuing thereof a sum of \$25.00, except as hereinafter provided, and any person may take out a licence under the provisions of this By-law on behalf of a partnership, firm or company of which he may be a member.

7. No person shall receive such a licence unless he is of a full age of 21 years, and has a place of business within the City of Vancouver, and furnishes a bond binding himself to the amount of \$500.00, with at least two sureties in the sum of \$250.00 each to the satisfaction of the Finance Committee, or a bond to the same amount from a guarantee company, and that he will employ only registered plumbers who have received and hold a certificate of competency from the Board of Examiners to do all such plumbing work as he may engage to do, and whether he is a practical plumber himself or not, will not permit or allow any such work to be done by himself or in connection with the business except by such registered plumbers, and that he will not violate any of the terms and conditions, rules and regulations contained in this by-law, or in any other by-law which shall come into force from time to time in the City of Vancouver respecting plumbing, drainage, sanitary matters and water works within the said City.

8. Every person desiring such licence shall file with the Inspector of Licences a petition in writing of the same, giving name of the applicant, and in case of a partnership, the name of each member thereof, together with the place of business, and asking to become a licensed master plumber, and said petition shall be accompanied by the bond and fee hereinbefore mentioned.

9. Any change of firm or location of the business shall be promptly reported to the Inspector of Licences, and the licence shall be kept in a conspicuous place at the location of the business.

10. When any member of a partnership or company is licensed individually for the partnership or company the licence may be issued in the name of the firm, co-partnership, or company, the said licence setting out the names of the members of the firm, co-partnership or directors of the company, and the date the licence was granted, and no licence so granted shall be transferable except with the permission of the Board of Health.

11. All licensed master plumbers shall be held responsible for all acts of their employees in connection

with their business for which such bonded licence is issued.

12. Every such bond and licence shall be for the year current at the time of the granting thereof, and shall expire on the 30th day of June next succeeding the date of issue, and for any licence issued between the first day of July and the 30th day of June in any year, the amount to be payable for the same shall be equal to the charge for the full year. A reduction upon payment of the licence for the following year will be made pro rata for all time less than the current year for which the said licence was first issued.

13. Upon satisfactory evidence furnished to the Inspector of Licences that any master plumber has been twice convicted by the Police Magistrate, or a Justice of the Peace, of any violation of the provisions of this By-law, or any of the by-laws respecting plumbing, drainage, sanitary matters or water works, his licence shall be, *ipso facto*, forfeited and returned to the inspector.

14. Any master plumber whose bonds and licence may become forfeited shall not again be entitled to a licence until the said declaration of forfeiture shall be revoked by the Board of Health, and if such master plumber is carrying on his business in co-partnership, or as a member of a company, the co-partnership or company shall not carry on the business of plumbing from the date of such cancellation.

15. Before proceeding to construct, re-construct, alter or change any portion of the plumbing, drainage or ventilation of an hotel, tenement, warehouse, wash-house, or other buildings the owner, his agent or the master plumber constructing the same, shall file in the office of the Plumbing Inspector an application for a permit therefor, and such application shall be accompanied with a specification, or abstract thereof, in a blank form prescribed and supplied for that purpose by the Plumbing Inspector, stating the nature and work to be done and giving the size, kinds and weights of all pipes, traps and fittings, together with a description of all closets and other fixtures, and a plan with the street and street number marked thereon, and showing the drainage system complete. Plans must be legibly drawn in ink on a scale of 8 feet to an inch.

16. A permit shall be granted or refused within two days from the time of filing of the application, and the permit of Plumbing Inspector (if granted) shall be valid for six months from the date of issue.

17. If the Plumbing Inspector shall find that the said plans and specifications do not conform with the rules and requirements laid down in respect to plumbing and drainage in the by-laws of the City of Vancouver, he shall not issue any permit for such plumbing and drainage, and it shall be unlawful to proceed therewith.

18. After a plan or specification has once been approved no alteration or deviation from the same will be allowed except with the written consent of the Plumbing Inspector.

19. From and after the passing of this By-law every owner, or agent of an owner, of any building doing or causing to be done, any plumbing in such building shall, on the same being passed by the Plumbing Inspector, that such plumbing has been done in accordance with the City by-laws, and on being requested to do so shall deliver such certificate to any person proposing to purchase or occupy such building.

20. No part of any plumbing or drainage work shall be covered or concealed in any way until it has been examined and approved of by the Plumbing Inspector, to whom notice must be sent when the work is sufficiently advanced to be inspected, unless in the case of drainage below the surface of the ground which the Inspector has failed to inspect within the five working hours next ensuing after being notified, then the ground may be filled in, in case of an emergency affecting the public safety.

21. All material must be of good quality and free from defects, and the work must be executed in a thorough and workmanlike manner.

22. The arrangement of soil and waste pipe must be as direct as possible.

23. The soil, waste and ventilating pipes and traps must, where practicable, be exposed to view for ready inspection at all times and for convenience in repairing. When necessarily placed within partitions or in recesses of walls, soil, waste and ventilating pipes must be covered with wood-work so fastened as to be readily removed. In no case shall they be so placed as to be absolutely inaccessible unless under written permission from the Plumbing Inspector.

24. When the ground is made or unsound the house sewer shall be of medium or extra heavy cast-iron or brass pipe, with joints properly caulked with lead.

25. In sound ground, provided it is outside of the building, hard, salt, glazed, vitrified pipe may be used; each length shall be wetted before being laid and the space completely filled with cement mortar, made in the proportion of two of good, clean, sharp sand and one of the best Portland cement, except in wet ground, when a gasket shall be placed round the spigot and forced down to the bottom of the socket and finished with mortar cement, as described above. Each pipe shall be cleaned out with a mop after being laid. The different lengths must be laid in perfect line on the bottom and sides. All connections must be through "Y" junctions.

26. Any soil pipe passing through a building, or beneath the floor of a cellar or basement, shall be of cast-iron or brass as in section 24, and shall extend to at least five feet outside the building, and no wall shall be built leaning solidly upon the same.

27. Where it is found impracticable to carry the main ventilating pipe above the surrounding openings or adjoining buildings within the prescribed distance of 40 feet, as in section 32, permission may be granted by the Plumbing Inspector to insert a running trap between the house and the sewer in a position to be approved by the Plumbing Inspector, such running trap to have a cleaning cap made gas and air tight brought up to the surface of the ground, and taken off the outer or sewer side of such running trap. A fresh air inlet shall be brought up to the surface of the ground from the inlet or house side of such running trap, and be provided with a proper cast-iron grating set in good Portland cement, and be kept free from dirt and deposit. In all cases where such intercepting trap is used the main ventilating pipe must open at least ten feet from any opening or window.

28. No exhaust from steam engines, or blow-off from steam boilers, or overflows from water motors shall be connected with either private or public sewers.

Trap vent pipes shall be of brass, lead, cast or galvanized wrought iron. All traps and fittings shall be equal in quality and thickness to the pipes to which they are attached.

35. All cast-iron pipes must be of the best clean grey metal, free from sand cracks, honey comb, porous places, air holes or other defects, and of the grade known as medium which may be used below all fixtures, and for ventilating pipes the grade known as "Standard" of the heavy quality. 37. All joints in iron or brass sewer pipe, soil pipe, waste pipe and ventilators shall be made with a gasket of oakum, and lead hand caulked, and be perfectly gas-tight.

38. All connections of lead with iron or brass pipe shall be made with a brass ferrule of the same diameter of the lead pipe put in hub of the iron pipe and caulked with lead. The ferrule shall be connected with the lead pipe with a wiped joint. Vent and flush pipes of water-closets shall be connected with brass couplings or strong rubber connections under the discretion of the Plumbing Inspector.

40. All water-closets, urinals, sinks, basins, wash trays, baths and all tubs or sets of tubs, and hydrant waste pipes shall be separated and effectively trapped except when a sink and wash tubs immediately adjoin each other, in which case the waste pipe from the tubs may be connected with the inlet side of the sink trap. Urinal platforms, if connected with the sewers, must also be properly trapped vented and automatically flushed with water from a supply tank.

41. Traps shall be placed as near the fixtures as practicable, and in no case shall a trap be more than 2 feet from the fixture. All traps must have a cleaning out screw on the under side.

45. For traps in water-closets the branch ventilating pipe shall not be less than 2 inches in diameter and not less than 3 inches for a building of 3 stories or more in height. Where a bath or basin, or both, are in the same room with a water-closet, the vents for same may join the closet vent above the fixture. In no case shall more than two water-closets communicate with the same ventilating pipe unless it is over 2 inches in diameter.

46. Overflow pipes must discharge into the open air where possible—with a trap on the end to keep out draught, otherwise they must in every case be connected with the waste pipe on the inlet side of the trap.

47. Every safe under a wash basin, bath, urinal, water-closet or other fixtures, shall be drained by a special pipe unconnected with a sewer, waste or soil pipe, discharging into the open air. The outlets of such pipes are to be provided with flap valves.

48. No drain pipes from refrigerators shall be directly connected with any soil pipe, waste or sewer.

49. Water-closets shall not be placed in an unventilated room or compartment. In every case there shall be an opening to the outer air. All water-closets shall be supplied with water from special tanks, and the water from these shall not be used for any other purposes. No water-closets shall be directly supplied from the water mains or service pipes. Water-closet cisterns shall be fitted with ball taps, &c., to prevent waste.

53. No person other than a licensed plumber or pipe-layer, acting under the supervision of the Inspector, shall be permitted to make any connection with a public sewer.

54. All openings for private sewers must be so made so as to cause as little inconvenience as possible to the public; on completion, the surface to be left in as good order as it was before the opening was made, and all materials, loose earth, and rubbish to be removed within twenty-four hours; all such openings to be fenced by day and lighted by night in such a manner as may be approved of by the Inspector.

56. No private sewer in actual use shall be disturbed except under the special direction of the Plumbing Inspector.

57. All water pipes must be protected from injury or settling.

58. The Plumbing Inspector shall have the power to enter upon any premises and examine the plumbing, ventilation, and drains, and should the same, in his opinion, be in an unsanitary condition, may notify the owner or his agents to have the same put in a sanitary condition, and any person neglecting to do so forthwith, to the satisfaction of the Plumbing Inspector, shall be liable to the penalties of this by-law.

59. The Plumbing Inspector is also authorized to receive and place on file drawings and descriptions of the plumbing and drainage of buildings executed in the City of Vancouver prior to the passage of this by-law, and examine and give a certificate if in accordance with the provisions of this by-law.
